REMARKS This is UNEVALUATED Information

Between 12 and 15 May 1954, local flights by MiG-15s or U-MiG-15s were observed at Finsterwalde airfield. Take-offs and landings were continuously made. The aircraft remained aloft for 3 or 4 minutes. On 14 May, 9 MiG-15s and U-MiG-15s were counted in front of the hangars. Truck [REDACTED] was observed proceeding to the field.

Comment. The present location of the Il-10 aircraft of the ground attack regiment in Finsterwalde has not been determined. The MiG-15s apparently made practice flights. Possibly, ground attack pilots are being re-trained in MiG-15s. On both 8 and 11 May, a train went from Finsterwalde to Brandis. On 11 May, another shipment moved from Finsterwalde to Werneuchen from where it was possibly dispatched on 12 May to Brandis. It has not been determined whether the shipments carried elements of the ground attack regiment from Finsterwalde or elements of the ground attack corps.
